

- Floodlight projector for heliports with a high luminous efficiency.
- Low Height
- Including frangible coupling and baseplate.
- The floodlights are normally installed along the perimeter of the Touchdown and Lift-Off area.
- Easy to install
- Compliance with ICAO Annex 14, Vol. 2

Operating Environment

- Rated operating temperature from -40 °C up to +50 °C
- The ingress protection rating is IP 66
- The impact protection rating is IK 10

Technical Specifications

Housing material	Powder coated
Housing color	Standard: Aviation Yellow (RAL 1004)
Light diffuser	Clear polycarbonate
Number of LEDs	8
Power / LED	2.5 W
Total power	20 W
Power supply	Standard: 230 V AC
Driver	Included (Inside the body case)

Photometric Characteristics

Lumious efficiency: 120 lm / W

Color of light: White - according to CIE Chromaticity Boundary

These projectors will provide an illumination of least 10 cd/m².

Electrical Characteristics

Standard power supply 230 V AC, 50/60 Hz

Dimensional Characteristics

approx. 360 x 230 x 250 mm
